## 1. Qualitative Information Regarding Settlement of Accounts for the First Nine Months

## (1) Information on Operating Results

In the over-the-counter (OTC) drug market during the nine months ended December 31, 2019, although sales in categories such as hair-care products and gastrointestinal treatments were lackluster, sales such as in general cold remedies and intestinal remedies were strong and, as a result, sales were higher year on year.

The Prescription Pharmaceutical Operation Group continued to face a difficult business environment due to increasing level of difficulty in the discovery of new drugs and the steady penetration of various government measures designed to curb healthcare costs.

Considering the current environment, the Self-Medication Operation Group is actively developing new fields to address growing interest in health consciousness among consumers, while also stepping up product development to create new products that satisfy consumer needs and generate new demand. In the area of sales, the group is implementing activities to expand contact points and spread our new brand concept to consumers, aiming for strong brands that attract consumers, while also focusing on expanding mail order system channels such as Taisho Pharmaceutical Direct and TAISHO BEAUTY ONLINE, which provides benefits to consumers. Outside Japan, since the full-scale entry into the OTC drug business in Asia in Fiscal 2009, the group has been working to expand its OTC drug business mainly in Southeast Asian countries such as Indonesia, the Philippines, Thailand, and Malaysia. In May 2019, the group's shareholding in Vietnamese company Duoc Hau Giang Pharmaceutical JSC ("DHG") increased to 51.01%, making it a consolidated subsidiary. Originally the group acquired 24.50% of DHG's shares in July 2016 and thereafter incrementally increased the shareholding ratio. Going forward the group will work to strengthen the pharmaceutical business operations in Vietnam by leveraging DHG's business base. In addition, the procedures were completed on July 1, 2019 (Time in France) for the Stock and Asset Purchase Agreement regarding UPSA SAS ("UPSA"), a French pharmaceutical manufacturer owned by Bristol-Myers Squibb Company (Headquarters: New York, United States of America, "BMS") through a subsidiary, which was entered into with BMS on December 19, 2018, and UPSA is now a wholly owned subsidiary of Taisho Pharmaceutical Co., Ltd. Under the group's policy to expand business in regions where future growth is expected, the group aims to achieve sustainable growth by expanding the overseas business through a bipolar structure targeting the European market in addition to the Southeast Asian

The Prescription Pharmaceutical Operation Group is working to maximize sales of new drugs by carefully targeting the provision of information. In addition, the group is working to secure the early approval of compounds at the development stage and reinforce its R&D pipeline by introducing new drug candidates. The group is also strengthening cooperation with external research institutions to support the ongoing discovery of original substances.
